When the Even Was Come...

And now when the even was come, because it was the preparation, that is, the day before the sabbath, Joseph of Arimathea, an honorable counsellor, which also waited for the kingdom of God, came and went in boldly unto Pilate and craved the body of Jesus. And Pilate marvelled if He were already dead; and calling unto him the centurion, he asked him if He had been any while dead. And when he knew it of the centurion, he gave the body to Joseph. And he bought fine linen, and took Him down, and wrapped Him in the linen, and laid Him in a sepulchre which was hewn out of rock; and rolled a stone unto the door of the sepulchre. And Mary Magdalene and Mary the mother of Jesus beheld where He was laid.

2,500 Homeless In Cedar Rapids

Iowa City Braces For Major Flood

CEDAR RAPIDS, Iowa (AP)—Iowa's second largest city was riding out one of its worst floods in history today in a state of tense apprehension.

At emergency headquarters at City Hall came a jittery short-wave report at midnight that the rampaging Cedar River which had struck a multi-million dollar blow at Waterloo 75 miles upstream was breaching the dike above the dam.

Fire Chief Jess Hunter dispatched two rigs to the site.

"It was only some seepage through the sandbags," the chief said. "The men shored up the weak spot. I guess it's easy to become alarmed."

"We had eight jeeps with radios patrolling the seawall and the dikes. They reported back all were holding."

About that hour the river had risen to about 18.50 feet, or 5 feet above flood stage. Two days ago a crest of 22.5 feet had been predicted, well over the disastrous 20 foot stage of 1929 before the flood protection works were erected.

"It now looks as if the river may not hit 20 feet," said Mayor J.J. Meaghan, who was directing operations.

But with about 2,500 persons forced out of their homes in low areas and with the river boiling against the six downtown bridges that span the east and west sides of the city the mayor said the danger would not be over until the swollen stream returns to its banks.

While Cedar Rapids was going through one of its most trying times, about 6,000 persons who had been forced from their homes at Waterloo were undertaking the

job of digging their homes out of the mud.

The river had gone out of its banks last Monday with the runoff from snow and heavy rains.

Mayor Meaghan said the earlier prediction of a 22.5 flood crest was based on readings in the 1929 flood but officials of the U.S. Geological Survey revised the crest downward on discovering that previous flood control work

House Okays Bill To Ease Passage Of School Levies

COLUMBUS, Ohio (AP)—If the Ohio Senate follows the lead of the House, school boards may quit sweating soon over the results of school tax levies.

The House has completed, and sent to the Senate, a bill which makes the second step in the last two years in easing the method for adoption of school levies.

Until two years ago, beleaguered school boards had been biting their collective fingernails every time a school operating levy was up for vote because of Depression-born restrictions. Back in the '30s, because of pressure from taxpayers' leagues, the legislature required heavy majorities for approval of school tax levies.

In 1959, the legislature decreed that majority rule again would

Arson Probed In Fire That Killed Eight

CLEVELAND (AP) — The Fire Prevention Bureau is investigating the possibility an arsonist may have caused the fire in an East Side tenement that killed eight persons.

"We have questioned one man, a tenant who was under an eviction notice," said Fire Capt. Herman Behnke, head of the bureau, Thursday night. "We will question him again, and will talk to a former tenant who was evicted."

No one is being held, Behnke said.

Twenty-nine persons, members of eight families, were asleep when the blaze broke out at the foot of the stairs early Thursday. Most were trapped in their apartments.

The last bodies were pulled from the wrecked three-story brick and frame building 14 hours after the blaze flared. Four of the eight victims, all Negroes, were preschool children.

A woman who escaped said she heard an argument in a downstairs apartment of the man under eviction notice 45 minutes before the first alarm was turned in.

Firemen also said there were two other fires in the immediate neighborhood with a 90-minute period. Those circumstances attracted special attention from arson investigators.

Meanwhile, Dr. Samuel R. Gerber, Cuyahoga County coroner, started an inquiry to learn whether the tenement owner and tenants had complied with safety requirements. A 1957 report of the city building inspector called for improvements to the 50-year-old building.

The victims were Linda Carr, 5; Guy Arnold, 56, and his wife, Olive, 52; William Merriweather, 58; Mrs. Naomi Simpson, her daughter, Deborah, 2, and her sons, Tommy, 3, and James, 4.

Police Hunt Wellsville Man Who Shot Officer

Termed Hotbed of War Danger

Reds Cite W. German Peril

MOSCOW (AP)—The Soviet-led Warsaw Pact powers today said the West is continuing to wage an arms race and announced they are strengthening their defenses.

The eight-nation Communist military counterpart of NATO singled out West Germany as a "major hotbed of war danger" in a declaration that skimmed over strife-ridden Laos and the Congo.

While making the usual plea for "peaceful coexistence" and complete disarmament, the Communist nations announced they had "agreed on measures which they find it necessary to take in the interests of further consolidation of their defense potential and strengthening peace throughout the world."

Coming after three days of talks in the Kremlin amid the usual complete secrecy, the communique was surprisingly mild in tone but appeared to pinpoint Germany as the next pressure point in the East-West test of nerves.

Some Western diplomats believed the mild tone indicated Soviet Premier Khrushchev still wants to pick up coexistence relations with the Kennedy administration. While the United States was mentioned as one of the Western Big Three behind the rearming of West Germany, it was not singled out for the sort of attack that was routine in the latter days of the Eisenhower administration.

The conference communique mentioned Laos only as one site of what it called "bloody outrages of colonialism" in Africa, Asia and Latin America.

This was expected, since the Warsaw Pact covers only the Communist nations of Eastern Europe and Communist China and other Asian nations attend only as observers. But it was assumed that during the discussions in the Kremlin, Khrushchev outlined the Soviet reply expected this weekend to the British proposal for a cease-fire in the Indochinese kingdom as the first step in neutralizing the strategic jungle buffer state.

Informed sources said the Soviets are likely to come up with

a counterplan insisting that a cease-fire be worked out only after an international conference on Laos gets underway.

East Germany's Walter Ulbricht presided at the Kremlin conference, underscoring the emphasis on Germany as the major testing ground in the cold war.

The Warsaw nations backed Khrushchev's repeated demand for a quick settlement of the German question and declared: "In the interests of security and peace it is absolutely necessary to eliminate the remnants of World War II by concluding a peace treaty with both German states, and, in this connection, rendering harmless the seat of danger in West Berlin by converting it into a demilitarized free city."

Gunman Fires 5 Shots at Victim Guarding Home

Assailant Charged With Assault on Wife's Daughter

A posse of about 50 police, sheriff's deputies and state highway patrolmen are combing northern Jefferson County today in search of a Wellsville man who wounded a Wellsville policeman in a scuffle early today in the home of the young suspect's estranged wife.

Police from as far away as Bridgeport and Canfield converged on the heavily wooded areas of Yellow Creek, four miles south of Wellsville in search of Charles Tice, 25, of 2019 Danbury Ave. Wounded Patrolman

Police said Tice wounded Patrolman Frank D. Daniels, 315 2nd St., in a scuffle early today as the patrolman lay in wait for the suspect's arrival in his Danbury Ave. home.

Police were seeking Tice in connection with his wife's charge that he abused her 15-year-old daughter.

Wellsville police complemented their searching party with state highway patrolmen from Lisbon, Winterville, Canfield and Bridgeport, plus officers from the Columbiana County sheriff's office.

Police gave this account of the shooting:

Mrs. Cleda M. Smith Tice had asked police in Wellsville for protection for her teen-age daughter by a former marriage who, she asserted, had been assaulted by her husband. She said her husband had threatened to "get the girl."

Unable to find Tice, they stationed Patrolman Daniels in the woman's home to await the blonde-haired truck driver's arrival. Police figured Tice would return home for money and food.

Patrolman Daniels, 25, began his stake out at approximately 9 p.m. while other policemen from the department searched area highways for Tice and his late model panel truck.

Tice Arrived at Home

At about 1:15, Tice arrived at the home and shouted: "Frank, let me in. I don't have a gun."

Daniels, a former paratrooper, apparently opened the door slightly.

Tice then reached his arm

Woman Killed In Boardman Crash

YOUNGSTOWN, Ohio (AP)—A woman was killed and her husband and son injured when the car in which they were riding was pushed into the path of a truck by another auto Thursday night.

Mrs. Irma Glass, 57, of Kenmore Avenue, Youngstown, was pronounced dead of a crushed chest at South Side Hospital here.

She was a passenger in a car driven by her husband, Otis, 52. Glass and his 11-year-old son, Glenn, were in fair condition in the hospital with multiple injuries.

The accident happened at the intersection of Ohio 7 and Indiana Road in Boardman, six miles south of here.

Police said Glass' car was stopped for a red light, when it was hit in the rear by a car driven by Robert Pipoly, 19, of Boardman. Impact of the collision sent the Glass vehicle into the path of a truck driven by Robert Martin of East Liverpool, police said.

Anti-Red Unit Is Denounced

John Birch Society Probe Requested

WASHINGTON (AP)—The John Birch Society, a conservative anti-Communist organization, has become "a matter of concern to the attorney general," a Justice Department spokesman said today.

Asked if the department planned any action, the spokesman said, "A growing number of inquiries which the Justice Department has received about the John Birch Society has made it a matter of concern to the attorney general."

He declined to go beyond that brief statement.

There was no direct comment from Atty. Gen. Robert F. Kennedy, brother of the President.

Members of both the House and Senate denounced the organization Thursday and called for investigations of its leaders. Several senators have been attacked in letter writing campaigns by society members.

The most caustic criticism centered around the society's founder, Robert Welch, who is said to have called former President Dwight D. Eisenhower and others Communists.

FBI Director J. Edgar Hoover spoke out today against "reckless charges" and "vigilante action" in a signed editorial in the FBI law enforcement bulletin.

Hoover did not mention the John Birch Society, and FBI spokesmen declined comment on whether the society was an intended target.

Hoover wrote: "The job of curtailing and containing communism is one for legally constituted authorities with the steadfast cooperation of every loyal citizen."

"This is neither the time for inaction nor vigilante action."

"Attributing every adversity to communism is not only irrational, but contributes to hysteria and fosters groundless fears."

The Birch society was founded in 1948 by Welch, a retired candy manufacturer from Belmont, Mass. It has active chapters in almost every part of the country.

The society is named for a Baptist missionary who served as an Army intelligence officer in the

Cease-Fire Before Talks

Greenisen Quits Post on Fair Board

Galen Greenisen of Salem, a county commissioner resigned Thursday night as a member of the Columbiana County Agriculture Society in compliance with a state order. He submitted his resignation at a meeting of the society in the county extension offices at Lisbon.

Greenisen was a fair board member since 1947. He served as president several terms and was vice president prior to his resignation.

Robert H. Terhune, state director of agriculture, ordered Greenisen to quit the post or face legal action for his removal. Terhune cited an attorney general's opinion stating that a member of a board of county commissioners may not at the same time be a member or officer of a county or independent agriculture society.

Democratic Commissioner Frank Wilson of Wellsville instigated the action to force Greenisen's resignation.

Fair Board President William Maple said his successor has not been named. The Society's next meeting will be held April 17 at 7:30 p.m.

X15 Roars To Record Height

Walker Flies Rocket Ship 31 Miles Up

EDWARDS AIR FORCE BASE, Calif. (AP) — Joe Walker, X15 pilot who rode the rocket ship higher than man has ever flown before, describes the sensation 31 miles up this way:

"You feel like you're beginning to get out there where some day you'll see both sides of the old ball."

Too much cloud cover hampered Walker's view on Thursday's record flight, but it was still a thrill. "I'm almost positive," he said, "that I could see all of the California coastline and portions of the Baja California (Mexico) coast."

Walker achieved the peak altitude of 165,000 feet with the X15's powerful new engine at three-quarter throttle. An X15 with a smaller engine set the old record of 136,500 feet last year.

A series of mishaps caused Walker some anxious moments.

First, he lost his cabin pressure seven minutes before the rocket ship was due to be dropped from the wing of the B52 mother ship. Then the rocket engine stalled and it was several seconds before Walker was able to get it started again.

"It felt like five hours," he said. On the way down he ran into mysterious buffeting at about 80,000 feet.

"I've never experienced anything like it," the pilot said.

The craft stopped vibrating after a short period, and Walker glided in for a landing without further incident.

His top speed was mach 3.9, or 2,590 miles per hour and the X15's fuel burned for only 79 seconds. The entire flight lasted 10 minutes.

At the top of his arc, Walker was weightless for two minutes—twice as long as man had previously experienced.

Walker, strapped to his seat, still felt unsupported. "You feel like you're falling through the air," he said. "But there was no problem. I could handle the ship the way I was supposed to."

An X15 is expected eventually to reach an altitude of 100 miles and speeds up to 4,000 m.p.h.

It's Beginning to Rain In Laos

It is out of the question that anyone on the scene in Laos will write about the local stress and strain from the viewpoint of the Laotians. This would be as unthinkable as to write about turmoil in the Congo from the viewpoint of the Congolese.

The least important people in these storm centers of world chaos are the local residents. They are as innocent of the momentous events swirling about them as South Sea islands were of the motives for bloodshed in the Pacific war theater during World War II.

In ages past, the innocent bystanders of peasantry and provincials whose fields and conflict between national rivals were the farms were turned into battlegrounds for the armies of kings, princes, dictators, and empire builders.

The hordes of Europe knew little or nothing about the issues between the opposing camps. Their conquerors and oppressors treated them no worse than their former lords and masters. War machines raged back and forth across their villages pillaging their possessions—and ordinary people survived somehow.

BUT NOW there is a new idea about international conflict—that it should be a contest of wills and might on a battleground belonging to someone else on another continent.

There was a time not long ago when the Soviet Union seemed ready to set up its war machine in the Congo, then reconsidered. It was obvious even to untrained minds that the Congo in Africa was too far from the Russian land mass in Asia to be a good location for a Russian machine.

But there still was Laos, another likely location for a war. It had been on the potential list since 1954, when the United States came within an ill-considered deci-

sion to go to war on the side of France in Indochina. Instead, there was the Conference of Geneva, which provided that Communist and French troops be withdrawn from Laos.

Less than 12 months later, Laotian government and Communist troops were fighting each other. The United States, underwriting the cost of Laotian independence was on the book in a position to bleed endlessly on a battleground as badly situated for its purposes as the Congo later was to be situated for Russian purposes.

THE LAOTIANS have only a vague idea of the strife that is threatened over control of their remote country. They have no railroad and only a few thousand miles of road. Only one of their four airfields is of any size. During the Laotian rainy season, which is about to begin and will last until fall, no large-scale movement of supplies and heavy equipment would be feasible anyway. No one really wants Laos. It's loss would be no blow to anyone.

The only legal intervention that could be made by outsiders would have to come through a Laotian request to the Southeast Asia Treaty Organization—SEATO. No such request has been made. Laos is settling down and in for the rainy months with no knowledge of its importance in newspaper headlines, international conferences and tense meetings of military planners.

Of all the people on earth who should be concerned, the least concerned are the Laotians. They are cast in the role of innocent bystanders for a possible test of strength between foreign giants in their back yard.

This is the new shape of war in the 20th century—Korea, the Congo, Lebanon, Suez and now Laos—vast military maneuvers on other people's soil to determine relative strength and determination.

Ohio Must Pay For Better Roads

Ohio Republicans in majority control of the 104th General Assembly find themselves in a squeeze between two campaign promises: to give local governments more street and road money and to save Ohioans from any immediate tax increases.

They have a bill that would satisfy both pledges. H.B. 49 would free about \$15 million more a year for local distribution by shifting the cost of the Department of Highway Safety from license plate revenue to part of the state gasoline tax.

The only problem with this bill is that it does not represent the widest course of action. It would cut off money that very well may be needed by the State Highway Department to keep Ohio's long-range road-building program on schedule, and it would not put this money in the local hands that need it the most.

IN THE FACE of some local opposition to H.B. 49, there have been rumors that the Republicans may revise the distribution formula to correct the latter problem.

Certainly the formula needs revising, as

just about everybody but the people who now benefit the most from it agrees. But there is a serious question whether hasty revision for political expediency would produce a new formula that would prove in the long run to be any fairer than the old one.

Even if the revision were perfect, it would not solve the other half of H.B. 49's problem: the reduction of state highway funds. Respected voices outside the State Highway Department say damage to the total highway program would far outweigh any immediate advantages to various localities under H.B. 49.

In other words, H.B. 49 is shortsighted. It does not take into account the fact the only solution to the state-local money need is to raise more money rather than to shift around available money.

A more farsighted approach, we believe, lies in S.B. 307, which would raise an estimated \$17.5 million for local governments by increasing motor vehicle license fees.

RELUCTANT AS WE ARE to call elected officials to task for remembering campaign promises, we feel compelled in this instance to urge Republican leaders in the General Assembly to give preference to S.B. 307 over H.B. 49.

Certainly no one enjoys paying higher taxes. But the mark of good government is not alone the level of taxes levied, but what the taxes buy.

Better roads in every part of Ohio are not only a luxury to be desired, but a necessity on which the future economic and social growth of the state may well depend.

Good roads and streets are expensive. To provide them for every citizen of Ohio requires more money.

We think a license fee increase would be the fairest and least painful way to provide the extra money.

But still all in one piece).

With knightliness so true;

Muscovite Parliamentary Procedure

Inside Labor

By Victor Riesel

NEW YORK
The Rev. Adam Clayton Powell Jr. is a powerful congressman with a taste for being literal in his pledges. Just

he told some three thousand construction union leaders that he would put them under 'vigilant scrutiny' to make certain they opened their Negro membership in the North as well as the South. Before those union chiefs walked out of their Washington conference hall, a special congressional investigating task force had them under the most vigilant scrutiny since Alexander Hamilton pruned a federal expense account.

Rep. Powell, easily the most influential Negro leader ever to sit in a high place in Washington, had just opened special investigative headquarters in New York's Federal Building when he sent his warning to the Building and Construction Trades Legislative Conference in Washington, Monday, March 20.

That still little known head-

So They Say

I think the important thing we want to keep in mind here is the real desire of the President and Mrs. Kennedy to preserve the character of this particular area of Virginia so that life can go on in its own unhurried way.—White House Press Secretary Pierre Salinger, assuring Virginians that the Kennedy retreat near Middleburg will not change the area.

The guiding principle of America is now, has always been and shall ever be "in God we trust."—President Kennedy.

Matter of Fact

In the 1950s, 'charity' swindlers bilked Americans out of an estimated 100 million dollars yearly. Sometimes they invent a nonexistent charitable organization and pocket all they collect. Usually they get permission of an established charity to use its name and keep most of the money they raise.

Barbs

Dad may object to mother getting some things on time, but not meals.

From the Files

5 YEARS AGO — Myron Stall-mith, sophomore at Ohio University, has been selected to play baseball on the varsity team.

10 YEARS AGO — Rev. Richard Swonger and family of S. Lincoln Ave. have moved to the new Methodist parsonage, 1347 E. State St.

25 YEARS AGO — George Davidson and George Bostwick of Chardon are visiting the former's brother, Wesley Davidson of E. State St.

quarters set up by Rep. Powell, under his authority as chairman of the House Education and Labor Committee, operates out of Rooms "E" and "F" of Suite 2704 in the huge Federal Building on Foley Sq.

What develops in those offices should fascinate all sections of the land. This task force will close up practically its entire New York operation in three months and hit the road.

THE CONGRESSMAN reveals he will then set up shop in Chicago, Detroit, and so on across country into the Southwest. He will wind up in the Los Angeles Federal Building.

Perhaps, says the congressman, he won't wait for the full inquiry to end in New York before he moves his squad west. He may simply double his staff and make simultaneous surveys.

Chief counsel of Rep. Powell's probers is Jim Branigan, whom the representative describes as the only Justice Dept. official ever to convict anyone exposed during the Kefauver hearings a decade ago.

Mr. Branigan then was the dynamo in the Criminal Division of the Justice Dept.'s Southern District of New York.

To work with Branigan there is Dick Fullmer, the task force's chief investigator. He, too, was in the Kefauver saga as part of the Tennessee's staff.

Working with them is a Negro investigator, Odell Clarke, formerly with the men's clothing union for 21 years.

MOST INTRIGUING is the fact that the rest of the staff is at least bilingual, fluent in Spanish, as well as English, so they also can deal directly with Puerto Ricans, exploited by rackets in the East and with Mexican-American workers in the Southwest.

Not in my years of congressional probe coverage have I run into this fascinating inquiry technique. Powell has arranged for

private phones at Courtland 7-7145 as a conduit for complaints.

Thus those with a grievance can telephone without being monitored or observed walking in to report their inability to obtain work on a federal project or to gain admission to one of the 19 unions involved in mass construction.

If the complainants can't reach the bi-lingual probers, such as Jose Roman, a former Puerto Rican newsman and TV broadcaster, there will always be the head of the office staff. She is Mrs. Olga Cano. She speaks both languages as easily as a public square sparrow can chirp.

WHEN POWELL shifts his probing unit to other federal buildings, he will set up a similar system of private phones and spread word in Negro and in Spanish-speaking communities that someone can always be reached.

However, when Branigan receives solid evidence from Dick Fullmer that Negroes have been unable to find work on a federal project or have been refused full membership in a union—there will not be any congressional hearing.

Powell says he will not do the traditional. Instead he will send each documented case along to Attorney General Kennedy and (or) Secretary of Labor Goldberg, confident that both men will act under the President's new Executive Order 10925.

If the legal talent of those unions involved in the cases sent to the Cabinet members is sufficiently skillful to beat off legal action—there will be public hearing at the year's end. Powell says he wants action, not TV cameras.

To add a final touch, he points out that the Democratic members of his full committee met the other day—and agreed that the construction unions will not get their increased picketing (common situs) demands if their unions are not opened wide to Negro—and all other—workers.

SIDE GLANCES

Ignoring The Obvious

By DAVID LAWRENCE

Increased Profits Would Hike Tax Revenue

President Kennedy has sent to Congress a message on the budget that doesn't come to grips with the real problem of the country—how to increase profits so that there'll be more tax receipts for the treasury.

Since the federal government is entitled to collect in taxes 52 per cent out of all profits, it would seem that any administration would be working hard these days to find ways to move profits upward. But all the task forces hereabouts—composed mostly of college professors who regard an impetus to profits as a forbidden, if not poisonous, subject—haven't come up with any plan to increase treasury receipts.

Plenty of words have been issued on how to pep up the economy by spending more money for social welfare, but the true causes of unemployment—the failure to provide tax incentives in manufacturing industries—have been largely ignored.

Job creation is the most important subject before the country today and, while a Democratic Congress has been in session nearly three months, not a single bill has been reported to either house to encourage the normal processes of job making.

Yet 29 per cent of the labor force is in manufacturing—the biggest single group. The unemployment figures show that 1½ million of the unemployed have been laid off in manufacturing businesses.

While aid to depressed areas and extension of unemployment compensation are desirable, they are not a cure for the real ailment—the failure of manufacturing to grow in volume as it should. This is because tax laws that apply to replacement and modernization of plant and equipment are antiquated and ineffective.

Unless the climate for business development improves generally, the prospect of getting more receipts from taxes for the treasury will grow worse and, even if there is a recovery period in the next few months, it may be followed soon by another recession.

THE TREND of the times unfortunately is toward more and more government spending for social welfare without paying much attention to the need for developing an increasing revenue from the normal sources of taxation.

Business and the government are partners in the profit-making process. It might be thought that the federal government would be much concerned about increasing the receipts from its 52 per cent tax on corporations. This logically points to the desirability of providing promptly a stimulus for business growth.

The other day when President Kennedy spoke of increasing the minimum wage from \$1 to \$1.25 an hour, he said he couldn't see why any business "making \$1 million a year or over" should object.

He was obviously mistaken in his reference, which should have been to gross sales of that amount but his error started a line of thought as to just how many companies in this country do make \$1 million or more and what profits are made by the different classes of companies—large and small.

It turns out, for instance, that in 1958—the latest year for which figures are available—there were only 3,857 corporations making \$1 million or more a year after paying taxes, while there were 607,274 corporations making less than \$1 million a year.

There were 379,250 corporations which lost money.

THE FIRST GROUP had \$16 billion left after taxes, and the second group retained about \$8 billion. Thus the total amount earned by both groups after taxes was about \$24 billion. This is a little more than enough to pay half of America's defense budget today, which is growing beyond \$44 billion.

Even if business earnings were taxed 100 per cent, there wouldn't be enough from this category alone to balance the \$84-billion budget now being proposed by the President.

Obviously, even if the deficit is to be held at the expected \$3 billion in the new budget and corporation taxes run to around \$20 billion, about \$61 billion has to come from tax payments by individuals employed in business, in the professions, in agricultural pursuits, and in other activities, and from sales and excise taxes.

Unless the business structure is healthy, these sources of revenue drop off, too.

It is surprising, therefore, that the Kennedy administration has neglected to do anything about stimulating the flow of profits in business.

Vague intimations have been given that tax-depreciation allowances are to be revised but this topic doesn't appear to have any of the spectacular urge that the peace corps idea has behind it, though tax-depreciation laws can mean far more for America and for the foreign-aid program than any other single factor that could be cited.

UNCLE SAM, as a more than 50-50 partner in American business, would appear to be rightfully concerned about how to increase profits but so powerful are the demagogic influences against doing anything to help business that the subject is not getting the attention it deserves.

Even the new secretary of commerce—who is supposed to be as vigorous an advocate of business legislation as his colleague, the secretary of labor, is in pressing for measures wanted by the AFL-CIO—isn't making a fight for the tax-depreciation program.

Nobody in the White House or in Congress seems to be a champion of larger and larger tax receipts that can and should be derived from business profits, not only for the benefit of the U.S. Treasury but for the unemployed who would get jobs if business could achieve a healthy recovery.

Danged Subway

By FRANCIS STILLEY

For Hal Boyle

NEW YORK (AP)—Dear Everybody Out There at Hoecake Corners:

Well, this is just a short letter because I have not got much time because I have been out and got mixed up with what they call the subway here.

You never saw such as this and neither did I. It is trains that run under the ground and it sure is a puzzle to try to figure out where they go to.

That was what it was that got this old cowpoke into such a fix.

Went and took one of the subways just for the heck of it. Ha you will laugh when I tell you what happened.

The subway train cars are more like cattle cars. They have doors on the sides and lots of them. Come to think of it believe the cattle get to ride better back out home on the trains. They have got more room and they do not get so hot.

You do not buy a ticket to ride on the subways. You buy a little thing about the size of a dime, then you put this in a turnstile a you go on the platform where you get on.

Next time Rock Island No. 42 comes through, wish you would tell my old buddy conductor Frakes that that is the way he ought to run his rail road then he would not have to take up tickets. Ha ha.

Not many people sit down on the subways. There are a few seats but there are lots more people than the seats.

It costs you 15 cents even to stand up.

This is maybe more than it is worth. You don't see a danged thing. It is all in a tunnel. Just black when you look out.

Well there was such a crowd I got jammed way back in and by the time I could get back out I was in a place they call Brooklyn. There is not much to that. Only stores and buildings. Took one look and was ready to go.

That is where the trouble really came in. I did not know how to get out either. Finally a citizen told me to go take another subway.

I did but here I now am in a place they call the Bronx. Sure a funny kind of name for this end of the country eh. The Bronx looks just about like Brooklyn.

There is lots more to tell you about New York but first I have got to try to get out of the Bronx.

Your old friend
Luke

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: Every morning at 6:15 a neighbor who is employed at the same plant where my husband works drops by to give him a ride. The plant is five blocks from our home. The neighbor's timing is perfect. He shows up the very moment we sit down to breakfast, so of course we invite him to join us.

He always says, "Just coffee, please" and then winds up having juice, cereal, eggs, muffins—everything in sight.

I'm sick of feeding this character breakfast. It's been more than three years now and I'd love to have a little privacy. This man has a healthy wife but he "hates" to bother her so early in the morning.

My husband says I shouldn't complain because the fellow DOES give him a ride every morning and it's handy. He calls it a "50-50 deal." Your opinion, please.—DAWN HOSTESS.

Dear Dawn: Some 50-50 deals are like that old joke about Hungarian chicken salad—one chicken and one horse.

Announce to your husband that next week the short-order shingle comes off the house and he should start to walk to work. The morning exercise will be good for him and the novelty of breakfast without a guest will be equally good for you.

Home Demonstration Council Program Set

The annual "achievement day" program of the Columbiana County Home Demonstration Council will be held April 18 from 10 a.m. to 2:30 p.m. at the East Palestine Covenant United Presbyterian Church, Miss Julia Shank, county extension agent in home economics, announces.

Ted Davis, a Canton area interior decorator, will speak on "Home Furnishings, 1961," and Mrs. Guy Byers of Salem, will present her version of "Russian Duet."

The program also will include special music, skits by township groups, exhibits and a style show featuring suits and coats made in the extension tailoring classes.

Reservations must be made by April 10, Miss Shank said.

Family Recreation Ideas To Be Aired

Family recreation ideas will be presented at a meeting of the Columbiana County Home Demonstration Council April 11 at 8 p.m. at the Memorial Building, Miss Julia Shank, county extension agent in home economics, announces.

James Steer of North Lima, retired school executive, and Mrs. Fay Stivers, coordinator of the Salem Senior Citizens Program, will be among the speakers.

Any persons interested in family recreation is invited to attend.

Deep-Freeze Dad

Dear Ann: My husband will not permit me to show any affection whatever to our 3-year-old son. If he falls down I have strict orders not to pick him up. If he hurts himself I must ignore him. If he cries I am supposed to say, "Shame, shame!"

My mother is a sweet, outgoing woman and when she comes to our home she likes to kiss the child and cuddle him. My husband saw her hold the boy on her lap the other day and he made a terrible scene. He says boys should never be handled, kissed or caressed or they will grow up to be sissies.

It doesn't seem normal that a small child should be treated this way. I believe in discipline but this absence of warmth is not a healthy atmosphere for a growing child, in my opinion. Please give me some help. My husband rules with an iron hand.—Z33.

Dear Z: Get a doctor to intervene in behalf of the child at once or you're going to have a seriously disturbed youngster on your hands. All children need love and affection.

The little one who never is cuddled or held grows up feeling unloved and unwanted. Your husband is the product of the deep-freeze type of home environment. Don't let him warp your child as he was warped.

Roving Fiancee

Dear Ann: I'm 28 and feel stupid writing to Ann Landers but I'm so shook I don't know which way to turn.

I gave my girl (age 23) a diamond for Christmas. The wedding date is set for May. Last night she told me she has seen a couple of old boy friends and they suddenly look good to her.

One recently returned after three years in the service, the other was transferred back to this city. She doesn't want to break our engagement, she just wants to date a little.

I don't know whether to say

the devil with the whole thing and get my ring back or shall I let her have her fling? Please guide me.—TEX.

Dear Tex: Tell her the engagement is temporarily off. Let her have her fling and make it plain that you'll fling a little, too. Better to risk permanent termination than to marry a girl who has a roving eye for old flames.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Salem News, enclosing a stamped, self-addressed envelope.

Junior Class Test Results

Parents of students in the Junior Class of Salem Senior High School will meet Wednesday at 7:30 p.m. in the school cafeteria to view the scores their sons or daughters attained in the Iowa

Test of Educational Development and to explore the purpose and the interpretation of the test.

The ITED, consists of a battery of information the students need for curriculum selection and in vocational and educational planning.

At the meeting Wednesday evening, parents will substitute for their children in making profiles of students' ratings in the eight areas tested. They also will evaluate the individual's achievement

in background in social studies and natural science, correctness of expression, quantitative thinking, reading in social studies, science, and literature, and general vocabulary. School Supt. Paul Smith said.

The scores of the sub tests are used as tools by the student, parent, teacher and guidance counselor to point the way to more effective course planning through knowledge of strengths and weaknesses.

The achievement test attempts to measure how much total learning a student has gained in eight fields of educational development, he said. Parents, by filling out their children's profile sheets, will have an opportunity to discover how they compare with Salem and national averages.

A question period will follow the interpretation of the test, and items of particular interest may be taken up with the teachers or counselors concerned.

The Doctor Says

By DR. H. T. HYMAN

Facts About Blood Count

Q — "A nurse friend who has information from a technician says that the hemoglobin and red cell count of the blood should be a certain figure while one physician gives another. Will you please give a statement of exact figures, as it affects a decision I may have to make?"

Dr. H. T. Hyman, a technician.

A — Dear lady, you are treading on very dangerous ground if you are considering an important plan of action based on laboratory figures or information obtained second-hand from a technician.

In the first place, laboratory figures are not constant like the days of the week. They are variables like temperature readings. In the second place, they are not to be regarded as absolute guides like road directions to and from fixed points. They have to be interpreted like the possible meaning of the various figures you see on the daily weather map.

LET ME BE more specific. The normal adult possesses some 26,000,000,000 red cells. When your blood is taken, the merest portion of a drop is drawn into a pipette and diluted 200 times. Then a count is made of the cells within a few small squares seen under the microscope. This total count is then multiplied by 10,000 to provide the figure that appears on the report.

Now, in addition to technical errors that multiply by 10,000, there are variations due to sex and age. A figure of 4.2 million may be

within normal limits for an adult woman. A figure of 6.2 million may be normal for an adult man.

WHEN YOU COME to hemoglobin values, the variation is even greater. Normal for an adult woman may be as low as 12 grams per 100 cubic centimeters (3 ounces) of blood; for an adult male, as high as 16 grams. And to make matters even more confusing, if the hemoglobin is reported in per cent, a blotter test in common use bases its value on a "normal" of 17.3 grams. That would give a normal adult woman with what might be her normal count, a report of 70 per cent. Or, a sufficiently low reading to suggest the diagnosis of "anemia" and to indicate the need for taking a tonic for "tired blood."

I hope I haven't confused you, dear lady. But perhaps I've indicated enough about blood counts to prevent you from making an important decision based on cold figures and information obtained from any one other than your doctor.

Dear Reader: Dr. Hyman appreciates your comments and questions but regrets that the heavy volume of his mail doesn't permit him to answer each individual letter or post card. However, he will comment in columns like the above upon matters of general or unusual interest.

Peel Guilty In Murder of Florida Judge

FORT PIERCE, Fla. (AP) — Joseph A. Peel Jr., convicted of masterminding the sensational 1955 slaying of a prominent judge, remained in jail today to await sentencing and word on whether he will be tried for the death of the victim's wife.

A Circuit Court jury ended Florida's most-publicized murder trial Thursday by convicting Peel, 37, of plotting the slaying of Judge C. E. Chillingworth. The verdict came after 5 hours 24 minutes of deliberation.

It was accompanied by a recommendation of mercy, making a sentence of life in prison mandatory, and saving Peel from the electric chair.

Defense counsel served notice of appeal. A hearing on the motion was tentatively set for April 26 before Circuit Court Judge D. C. Smith. Formal sentencing was set for the same day.

Peel was brought to trial March 6, several months after officers broke open the secret of the Chillingworth's disappearance.

Two witnesses at the trial testified that they kidnaped the judge and his wife, Marjorie, from their waterfront home near Palm Beach, June 15, 1955 took the couple about one mile off-shore in the Atlantic Ocean, weighted their bodies and pushed them out of a boat. Neither of the bodies has been found.

Floyd Holzapfel and Bobby Lincoln, former Negro leader of moonshining at West Palm Beach, testified they killed the Chillingworths at the request of Peel.

Holzapfel awaits sentencing for first degree murder after pleading guilty to participating in the slayings and waiving a jury trial. The state promised immunity to Lincoln.

Both Holzapfel and Lincoln testified that Peel wanted Chillingworth killed because of fear the judge would disclose Peel's position as a leader of a bolita (gambling) ring and a protection racket. Peel was city judge at West Palm beach at the time.

Those years are the presidential and gubernatorial years when most folks bestir themselves to go to the polls.

But school people — and many legislators—believe that school financing problems can become acute in the odd-numbered years as well. So the House has approved a bill which cuts from 60 to 55 per cent the favorable vote needed by a school levy for approval in special elections and in primary elections in odd-numbered years.

pro-Communist Pathet Lao.

But there was no solid evidence that the Soviet Union would give a clear or concise answer to Western demands for the cease-fire.

The Soviet Union had been expected to make its position known by Thursday to British overtures for a political settlement in Laos. The reply did not come.

The delay was attributed by sources here to the need of Soviet Premier Khrushchev for consultations with Communist China and North Viet Nam before making a formal reply to Britain. A British note last weekend called for a cease-fire, reactivation of the three-nation international control commission (composed of India, Poland and Canada), followed by an international conference.

had removed two feet of silt from the river.

"The work of the river front commission has saved us millions of dollars," the mayor said.

The Cedar River is expected to flatten out after leaving Cedar Rapids and there are no more big towns on the rest of its way into the Mississippi.

Floods also menaced areas in the South as more rain hit wide sections, with severe thunderstorms in southern and central Alabama during the night. The thunderstorm belt extended eastward into extreme eastern South Carolina, with the wet belt extending from eastern Louisiana through southern Alabama and extreme northwest Florida.

A freak snowstorm heaped parts of Texas and Oklahoma panhandles to depths of more than one foot, temporarily blocking some roads. Most of the snow in the southern Plains area, however, was light. Pampa, Tex., has 12 to 13 inches; Elmwood, Okla., 10 inches.

There was rain from the Ohio Valley into Kansas and Oklahoma, but the heaviest amounts fell in the central Gulf area. Montgomery, Ala., had 2½ inches in 6 hours and 3½ inches in 24 hours.

In Hattiesburg, Miss., the Weather Bureau warned residents of lowlying areas to be ready to evacuate their homes as the Leaf and Bouie rivers continued to rise.

Hal Naragon Stars for Minnesota; Cleveland Rained Out at Tucson

Minnesota Club Ticket Sales Soar

By JOE REICHLER
Associated Press Sports Writer
ORLANDO, Fla. (AP) — After years of austerity, Calvin Griffith, owner of the Minnesota Twins, formerly the Washington Senators, is striking it rich. Unless all signs fail, Griffith and his transplanted Twins are headed for a success story that may approach or equal that of Lou Perini and his Braves when the Boston franchise was moved to Milwaukee eight years ago.

Last year in Washington, the club's advance season ticket sale totaled only \$127,000. So far, in Minneapolis-St. Paul, more than \$750,000 has been banked from season tickets. Club officials are confident the amount will exceed \$1,200,000 before opening day.

"We drew 743,000 in Washington last year," said Herb Heft, the club's publicity man. "We'll be disappointed if we don't come close to doubling that figure. We know we're going to sell out opening day and we're already assured of at least 12,000 fans at every one of our games. We're going to start out with more money in the bank than Washington grossed all last year."

The seating capacity at the Bloomington Park has been increased from 22,000 to 30,463. By September, the stadium will be able to seat 40,000.

"We've already tripled the number of tickets we sold in Washington last year at this time," said Heft. "The way the fans have been clamoring for tickets, a million attendance our first year in Minnesota should be a snap. Some of our people are envisioning a million and a half."

Even more pleasing to Griffith than the fans' response has been their treatment of him. The head of the Twins is a changed man. It's as if he's starting a new life.

Dale Smith fired a 601-205-193-203 in Commercial League competition yesterday at Timberlakes to pace all bowlers in the city. Other bowlers in that loop with high scores yesterday were Ron Shaffer, 581-203-187-193; Russ Shaffer, 557-170-208-193; S. Hoffman, 544-256; and Tony Martinelli, 525. Ohio Fuel swept team honors with 2547-896.

Cy Albert was the big gun in the YK loop with a 542-194-192. John Pukalski notched 530-207; George McFeely, 524-222; John Girard 519 — 186-186; and Bill Wark, 515-192.

Flying "B" posted a 2463 team high series and Tool & Die came up with a 904 high single.

In the Ladies Afternoon League, Dot Collier easily led the way

first St. Louis pitcher to go nine innings this spring. Duke Snider Homers
The big right-hander allowed four hits, struck out four and walked four. The lone run off him came on Duke Snider's fourth-inning homer.

White, who batted .283 and slammed 16 home runs in 1960, collected two of the Red Birds' six hits. Spencer broke up the game with a ninth inning home run off veteran Don Newcombe, who is attempting a comeback with his old team. The lanky infielder was the first batter to face Newcombe in the ninth. Newcombe, who relieved starter Larry Sherry, gave up three hits in his three-inning stint.

Yanks Nip Tigers
Elsewhere along the exhibition trail Thursday: Minnesota edged the Chicago White Sox 4-3, New York nipped Detroit 5-4, Milwaukee trimmed Kansas City 8-2, Pittsburgh posed a 6-4 victory over Philadelphia, San Francisco turned back Boston 7-5, the Los Angeles Angels shaded Vancouver of the Pacific Coast League 3-2 and the Baltimore "B" squad edged Richmond of the International League 6-5. The game between the Chicago Cubs and Cleveland was canceled by wet grounds at Tucson.

Hal Naragon's three-run homer and Bob Allison's solo four-bagger triggered the Twins' conquest over the White Sox. Home runs by Deron Johnson and Jesse Gonder were the key blasts in the Yanks' win at the expense of the Tigers.

Billy Martin Bats in 5
Billy Martin batted in five runs with a homer and two singles in the Braves' success over the A's. Joe Adcock also homered for Milwaukee. Dick Schofield's two-run homer in the eighth provided the winning margin for the Pirates against the Phils.

Willie Mays and rookie Tom Haller produced homers in the Giants' win over the Red Sox. Jackie Jensen of Boston was forced to retire with a pulled muscle in his right leg. The injury was believed not serious.

Coach John Jordan Here April 15

Cage Banquet Speaker Starred at Notre Dame

Notre Dame Basketball Coach John Jordan, who will speak at Salem's annual Basketball and Track Banquet at the Saxon Club on Saturday, April 15, has just completed his 10th successful season as head mentor of the Fighting Irish.

In those 10 seasons, Jordan's teams have won almost twice as many games as they have lost. Five of his last eight teams have entered the NCAA post-season tourney. His best season was in 1953-54 when the Irish posted a 22-3 record, and Jordan was named by the New York Metropolitan Sportswriters as "Coach of the Year."

JORDAN WAS RAISED on Chicago's South Side, attending Quigley Prep before entering Notre Dame as a freshman in 1931. He played freshman basketball and football for the Irish, but decided to concentrate on basketball. He won three varsity letters in the cage sport. Jordan captained the 1934-35 squad.

Ed (Moose) Krause preceded Jordan as both the coach and the captain of Notre Dame basketball squads. Moose captained the squad in his senior year, 1933-34, and was the head coach when Jordan took over the job in 1951. Moose gave up the coaching job to devote full time to his role as Athletic Director.

BEFORE TAKING the head coaching job at Notre Dame, Jordan had been a very successful

mentor at Mount Carmel High School in Chicago and at Loyola University.

Jordan has experienced only two losing seasons at Notre Dame.

His speaking appearance here next month is being sponsored by the Salem Booster Club who will be honoring the Salem High basketball and track squads.

Tickets for the banquet, which will include a roast beef dinner, may be purchased from any Booster Club member. A crowd of approximately 300 is expected. Several special awards will be presented to outstanding SHS athletes.

Durocher, Paul In 'Friendly Chat'

ST. PETERSBURG, Fla. (AP) — Leo Durocher, who admittedly would like to be a major league baseball manager again, and Gabe Paul, who won't need a manager for his new Houston club until next year, have been talking together.

They won't say what their conversation was about. After a 20-minute talk prior to exhibition, both Durocher, now a Dodger coach, and Paul, general manager of the Houston National League club-to-be, called it "merely a friendly chat." Neither would say it concerned managerial possibilities for 1962.

Mears To Coach NCAA All-Stars

CLEVELAND (AP) — Ray Mears, who coached the Wittenberg Tigers to the NCAA college division title, will coach this year's all-stars in three games against the Cleveland Pipers this weekend.

The teams clash in Buffalo tonight, in Akron Sunday afternoon at Public Hall here Sunday.

The Pipers won the nation's top amateur title—the AAU championship—last week.

The material Mears will have to work with is star-studded, including:

Tom Stith, All-America from St. Bonaventure; Larry Siegfried of Ohio State; John Tidwell of Michigan and Don Kojis of Marquette.

Walt Bellamy, Indiana University's great rebounding center, will play the first two games with the college seniors. He also will play in Cleveland Wednesday when the all-stars and the Harlem Globetrotters tangle at the Arena.

Rounding out the all-star squad are Whitey Martin of St. Bonaventure, Bob Pawlak of Toledo, Fred Sawyer of Louisville, and Tennessee State's Rossie (Shotgun) Johnson.

Recognition Program Set for April 8

Baseball Banquet Speaker To Be Salem's Chet Smith

Chester Smith, sports editor of the Pittsburgh Press, will be the main speaker at the Salem Junior Baseball League's annual recognition dinner program to be held Saturday, April 8, at the Memorial Building.

Mr. Smith is a graduate of Salem High School. He came here in 1907 when his father became minister of the local Methodist Church.

After attending Dartmouth College, he served in the Navy during World War I. Smith has been sports editor of the Pittsburgh Press since 1931. He previously worked for the Pittsburgh Dispatch, Pittsburgh Post-Gazette-Times and the Cleveland Press.

HE HAS COVERED many major sports events, including World Series, Rose Bowl, Sugar Bowl, Cotton Bowl, Orange Bowl games and many others. He was elected president of the Baseball Writers Association of America in 1950 and of the Football Writers Association of America in 1956.

Mr. Smith married a former Salem girl, Esther Gallagher, daughter of the late Dr. and Mrs. John S. Gallagher. Dr. Gallagher was a widely known Salem physician for many years.

A large turnout is expected at the banquet to hear Mr. Smith and welcome him back to Salem for the occasion.

JOHN HERMAN, JR., president of the Salem Junior Baseball League, reports that invitations to the banquet are being sent out to some of the former Salem men who played baseball in the Salem Junior Baseball Program and then went out and made names for themselves in various walks of life.

This year the Charles H. Carey Post 56, American Legion, is combining the annual Legion Birthday Celebration with the Salem Junior Baseball League's

Su Mac Lad Wins Free-for-All Trot

YONKERS, N. Y. (AP)—Su Mac Lad, owned by J. W. Berkemeyer of New Milford, N.J., took command before the first quarter and went on to an easy victory Thursday night in the \$25,000 Free-for-All Inaugural Trot at Yonkers Raceway.

Su Mac Lad, driven by Harold Dancer Sr., substituting for his brother Stanley who is under a five-night suspension, beat Silver Song by a length and a quarter. Air Record was third, another length and three-quarters behind.

The winner, the 8.5 favorite, trotted the mile in 2:03 4-5, fastest time of the meeting for either gait, and returned \$5.20.

Su Mac Lad picked up \$12,500, boosting his lifetime earnings to \$222,249.

Great Lullwater finished fourth in the field of seven followed by Tie Silk, Steamy Demon and Rexall Boy.

OLD COUNTRY STORE

Columbiana-Lisbon Road

If you happen to be in Groner's Barber Shop in Columbiana on the square, take a look at the oil painting Will Burgess made of us. It is a picture of our old covered wagon traveling down a country road. I think it's pretty nice. If you ever need an unusual sign work of any kind, he would appreciate your seeing him. By the way, he is the one who created our wagon wheel emblem.
